GENERAL TERMS

1. The undersigned represents that he/she has the power and authority to make and execute this assignment.
2. The undersigned agrees to indemnify and hold harmless PWP from any damage or expense that may arise in the event of a breach of any of the warranties set forth below.
3. In the event the Work is not accepted and published by PWP or is withdrawn by the author(s) before acceptance by PWP, the foregoing **User License Agreement** shall become null and void and all materials embodying the Work submitted to PWP will be destroyed.
4. For jointly authored Works, all joint authors should sign, or one of the authors should sign as authorized agent for the others.

A. LICENSE OF PUBLISHING RIGHTS

The Authors hereby grant to PWP an exclusive publishing and distribution license of the manuscript identified above and any table, illustration or other material submitted for publication as part of the Work in print, electronic and all other media (whether now known or later developed), in any form, in all languages, throughout the world, for the full term of copyright, and the right to license others to do the same, becomes effective when the Work is accepted for publication. This license includes the right to enforce the rights granted hereunder against third parties.

B. SUPPLEMENTAL MATERIALS

With respect to Supplemental Materials that the Authors wish to make accessible through a link in the Work or on a site or through a service of PWP, PWP shall be entitled to publish, post, reformat, index, archive, make available and link to such Supplemental Materials on a non-exclusive basis in all forms and media (whether now known or later developed), and permit others to do so. "Supplemental Materials" shall mean additional materials that are not an intrinsic part of the Work, including but not limited to experimental data, e-components, encodings and software, and enhanced graphical, illustrative, video and audio material.

C. SCHOLARLY COMMUNICATION RIGHTS

The Authors understand that they retain the copyright of the Work and that no rights in patents, trademarks or other intellectual property rights are transferred to PWP. As the authors of the Work, the Authors understand that they shall have: (i) the same rights to reuse the Work as those allowed to third party users of the Work under the **CC-BY-NC-ND License**, as well as (ii) the right to use the Work in a subsequent compilation of own works or to extend the Work to book length form, to include the Work in a thesis or dissertation, or otherwise to use or re-use portions or excerpts in other works, for both commercial and non-commercial purposes. Except for such uses, the Authors understand that the license of publishing rights they have granted to PWP gives PWP the exclusive right to make or sub-license commercial use.

D. USER RIGHTS

PWP will apply the **Creative Commons Attribution-Noncommercial-NoDerivative Works 4.0 International License (CC-BY-NC-ND)** to the Work when the Work is published in the journal on its online platforms on an Open Access basis. For further information, see the website of the journal.

The **CC-BY-NC-ND License** allows users to:

- copy and distribute the Work, provided this is not done for commercial purposes and further does not permit distribution of the Work if it is changed or edited in any way, and provided the user gives appropriate credit (with a link to the formal publication through the relevant DOI),
- provides a link to the license, and that the licensor is not represented as endorsing the use made of the Work.

The full details of the license are available at <https://creativecommons.org/licenses/by-nc-nd/4.0/>.

E. REVISIONS AND ADDENDA

The Authors understand that no revisions, additional terms or addenda to this **User License Agreement** can be accepted without the PWP's express written consent. The Authors understand that this **User License Agreement** supersedes any previous agreements the Authors have entered into with PWP in relation to the Work from the date hereof.

F. COPYRIGHT NOTICE

PWP shall publish and distribute the Work with the appropriate copyright notice.

G. AUTHOR REPRESENTATIONS/ETHICS AND DISCLOSURE/SANCTIONS

The Authors affirm the **Author Representations** noted below, and confirm that they have reviewed and complied with the relevant Instruction to Authors, Ethics in Publishing policy, Declarations of Interest disclosure and information for authors from countries affected by sanctions (Iran, Cuba, Sudan, Burma, Syria, or Crimea).

The Authors are also aware of the PWP's policies with respect to retractions and withdrawal (<http://www.praiseworthyprize.com/ethics/#editors>).

For further information and sanctions see the PWP's Ethical Guidelines page at <http://www.praiseworthyprize.com/ethics/> and the journal home page.

Authors Representations

1. The Authors represent that the Work is the Authors' original work. If the Work or any of the Supplemental Materials was prepared jointly, the First Author or Corresponding Author agrees to inform the co-Authors of the terms of this Agreement and to obtain their signature(s) to this Agreement or their written permission to sign on their behalf.
2. The Work was not submitted for review to another journal while under review by this journal and will not be submitted to any other journal. The Work and the Supplemental Materials do not infringe any copyright, violate any other intellectual property, privacy or other rights of any person or entity, or contain any libellous or other unlawful matter or contain material or instruction that might cause harm or injury.
3. The Authors have obtained written permission from copyright owners for any excerpts from copyrighted works that are included and have credited the sources in the Work or the Supplemental Materials.
4. Except as expressly set out in this **User License Agreement**, the Work is not subject to any prior rights or licenses and, if any of the Authors' institution has a policy that might restrict their ability to grant the rights required by this **User License Agreement** (taking into account the Scholarly communication rights permitted hereunder), a written waiver of that policy has been obtained.
5. If the Authors are using any personal details or images of patients, research subjects or other individuals, they have obtained all consents required by applicable law and complied with the PWP's policies relating to the use of such images or personal information.
6. Any software contained in the Supplemental Materials is free from viruses, contaminants or worms.
7. The Authors agree to defend, indemnify, and hold harmless PWP, its officers, directors, employers, agents, and any of its affiliates for any loss or damage (including legal fees) caused to PWP for the publication of the submitted article.
